

INTERMEDIATES

JULY 2016

In the month of July we used different textures to express ourselves in creative art. We also put on our chef hats and after a trip to Longo's, we explored tastes by making our own popsicles and lemonade. Our classroom made a big change and is now very open. If you looked inside you may have seen us put on our hard hats to build forts and trains out of chairs blankets in the kitchen area, or maybe you saw us splashing in the sensory bin with water and ice! If you saw our fun outside, then you know we just love to get wet while washing our cars or cooking in the sandbox.

AUGUST 2016

In August we hope to continue learning through our play. We cant wait to see what we will make next or build in the classroom. Take a peek in our classroom, maybe you'll see us dancing or blowing bubbles as you go by.

AUGUST 2016
