

TODDLER

JULY 2016

Over the month of July, the toddler enjoyed exploring the world around them both inside and outside. We enjoyed different activities that matched our surroundings (water play, bird watching, jumping in puddles, building etc).

We also participated in our favorite creative activities such as colouring, stickers, painting and bingo dabbers. Exploring the sensory bin and discovering Ashley and Karen's circle box was a lot of fun too!

AUGUST 2016

For the month of August, we will try to follow and expand our interest in trains, cars, and trucks based on many observations.
